Lapu-Lapu City, Cebu

About Me

Detail-oriented and results-driven Quality Assurance Tester with 1 year of experience in software testing, quality assurance processes, and defect management. Skilled in creating and executing test cases, identifying and documenting software defects, performing functional, regression and collaborating with cross-functional teams to ensure the delivery of high-quality software products. Proficient in test management and bug-tracking tools, with a strong understanding of the software development life cycle (SDLC) and Agile methodologies. Committed to improving product reliability, enhancing user experience, and maintaining quality standards through thorough testing and continuous process improvement. Seeking to leverage technical expertise, analytical problem-solving abilities, and attention to detail to contribute to the success of a dynamic organization's quality assurance team.
